MISSION

The Mission of the Oil Region Alliance of Business, Industry & Tourism is to increase the prosperity and population of the Oil Region by enticing people to live, work, learn and play in "the valley that changed the world" through the preservation, promotion, development and support of historical, educational, natural, recreational, residential, commercial and industrial destinations.

Oil Region Alliance of Business, Industry & Tourism

217 Elm Street
Oil City, PA 16301-1412

Toll Free: 800-483-6264
Fax: 814-677-5206
www.oilegion.org

INTRODUCTION

In order to realize the greatest effect from its limited resources, the Oil Region Alliance is implementing organizational, programmatic and philosophical changes in 2012.

- **Focus on Assets**
Building on the Oil Region's strengths—outdoor recreation resources, strong local businesses, desirable quality of life, etc.—to create future prosperity (formally known as Asset-Based Development).
- **Emphasize Partnerships**
Linking resources with other organizations to increase resource power and allow the Alliance to operate within the means provided by supporting stakeholders.
- **Refocus the Question**
Changing the commonly asked question, “how can the region regain what it once had?” to the strategic question, “what can the region become?”
- **Integrate Functions**
Functioning as regional Lead Economic Development Agency, Tourist Promotion Agency, and Heritage Area Manager while bringing the power of these individual roles together into a more cohesive plan, collectively building toward economic opportunity in its broader sense.

This document is a summary of what the Alliance plans to accomplish in 2012. It includes:

- **Implementation Projects**
Short-term, tangible projects that will be completed in 2012.
- **Planning Projects**
Assessment and planning that will become implementation projects or ongoing programs in future years.
- **Ongoing Programs**
Systems of services and projects with recurring and/or multi-year objectives.

We hope this brochure will influence your vision for the region—maybe inspire you to take a more active role in the region's revitalization. If you do not already belong, we hope that you will join the Oil Region Alliance as a volunteer, advisor, member or financial supporter. The Alliance doesn't have the resources to single-handedly change the economy of the area but we are a valuable participant for change over time, working with partners, together building a sustainable prosperity that is the dream of those who live, work and play in some of the most amazing real estate on the planet, the Oil Region.

IMPLEMENTATION PROJECTS

Sandycreek Industrial Park Infrastructure Development

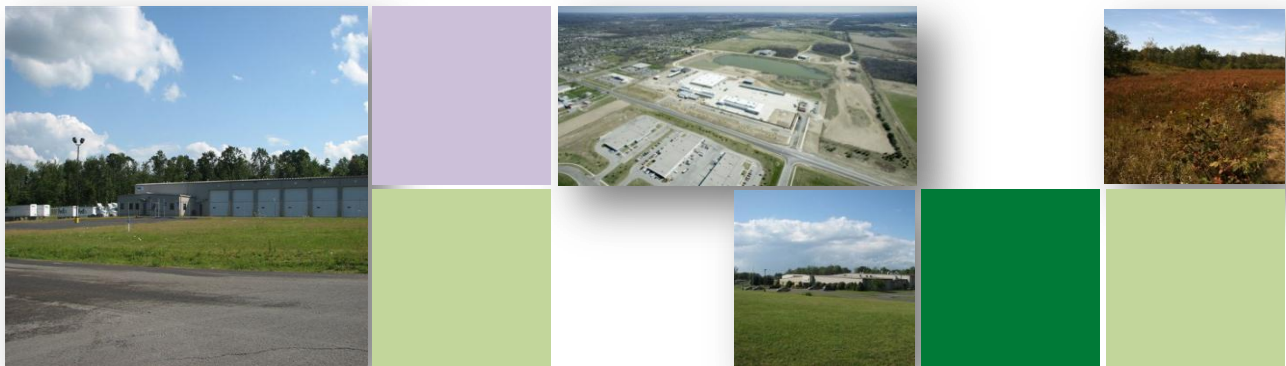

Now that the Barkeyville Industrial Park is filled, ORA will focus on infrastructure development at the region's newest industrial park in Sandycreek Township. Located at the north terminus of the Route 8 Expressway, 3.5 miles south of Franklin on Debence Drive, the Sandycreek Industrial Park infrastructure project will provide critical services to an additional 6 industrial building lots on 64 acres.

Specifically, 2012 development extends Debence Drive, along with natural gas, water and sewer utilities approximately 1000' into the industrial park. The project will also give Sandycreek Township the opportunity to connect their potable water line beyond the park to the existing water line on Morrison Run Road.

Funding for the project is provided by grants from DCED, ARC, County of Venango (CDBG funds) and loan funds from USDA.

Project Partners

- Appalachian Regional Commission (ARC)
- County of Venango
- Northwest PA Regional Planning and Development Commission
- Pa. Department of Community and Economic Development (DCED)
- Sandycreek Township
- U. S. Department of Agriculture, Rural Development (USDA)

IMPLEMENTATION PROJECTS

Oil & Gas Industry Development

Natural gas reserves in and around the Oil Region are estimated to be among the largest in the world. If emerging technologies adequately expand the market for this clean, green fuel and its by-products, natural gas may be the key to economic growth in the region just as oil was 150 years ago. How the region will react to opportunities is the focus of this priority project which includes a blend of implementation and planning components.

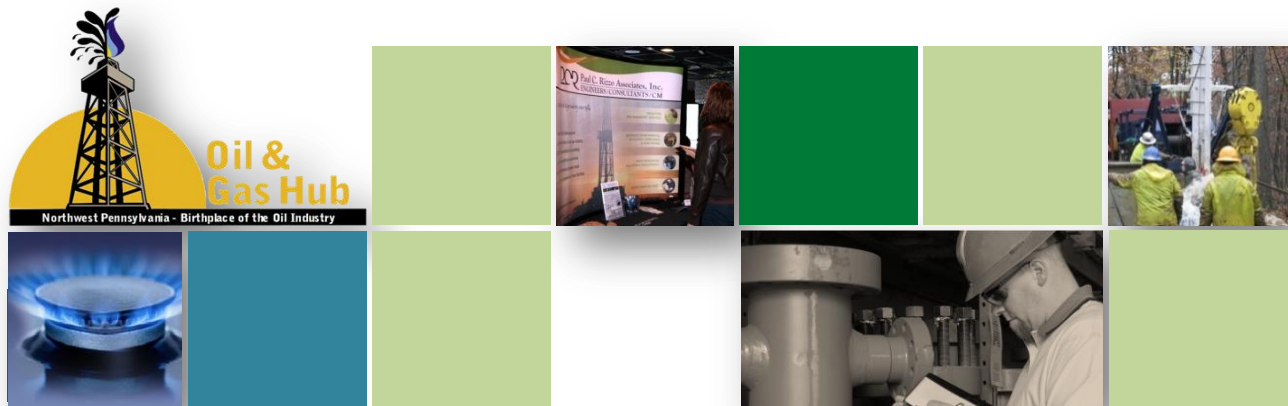

A major piece of development in 2012 will be attracting the National Pipeline Inspector Training Center, proposed by the Public Utility Commission, to Venango County. Work on this project began in 2011 with meetings in Harrisburg and continues through communication with public officials and others.

Other oil and gas industry development efforts will continue through ORA's leadership in the NW PA. Oil & Gas Hub group. The Hub develops educational and training programs that provide job seekers and businesses/entrepreneurs with the information and connections to be successful in the oil & gas industry. The hub will offer an Oil & Gas Business Prep Certificate Program, co-host the 2012 Oil & Gas Information Center (a Business-to-Business forum), and a Business Supply Chain event in July.

The planning component is based on expanding the market for natural gas. ORA's strategy will interpret the natural gas market into regional opportunities for growth and leadership.

Project Partners

- Clarion Economic Development Corporation
- Clarion University of Pa., Venango Campus
- County of Venango
- Keystone Community Education Council
- Pa. CareerLink Oil Region
- Penn-Northwest Development Corp
- Titusville Community Development Agencies
- Venango Technology Center

IMPLEMENTATION PROJECTS

Erie-to-Pittsburgh Trail Development

The 206-mile Erie-to-Pittsburgh Trail (eriepittsburghtrail.org) connects the Erie Bayfront to the Point in Pittsburgh using high quality, paved, multiple-use recreational trails for bicyclists and pedestrians. This trail system, which is about 60% complete, will ultimately connect the Great Lakes Seaway Trail (seawaytrail.com) in New York to the Great Allegheny Passage Trail in Pittsburgh (atatrail.org) providing hundreds of miles of trails and connectors across New York, through Western Pennsylvania and on to Washington, D.C.

EPT stretches through the Oil Region National Heritage Area from Hydetown to Emlenton over the Titusville Queen City, Oil Creek State Park, McClintock, Samuel Justus and Allegheny River Trails. These trails provide the single most complete section of EPT. With over 67 miles of trails from southern Crawford County through Venango County, EPT offers first rate recreation and substantial economic development opportunities.

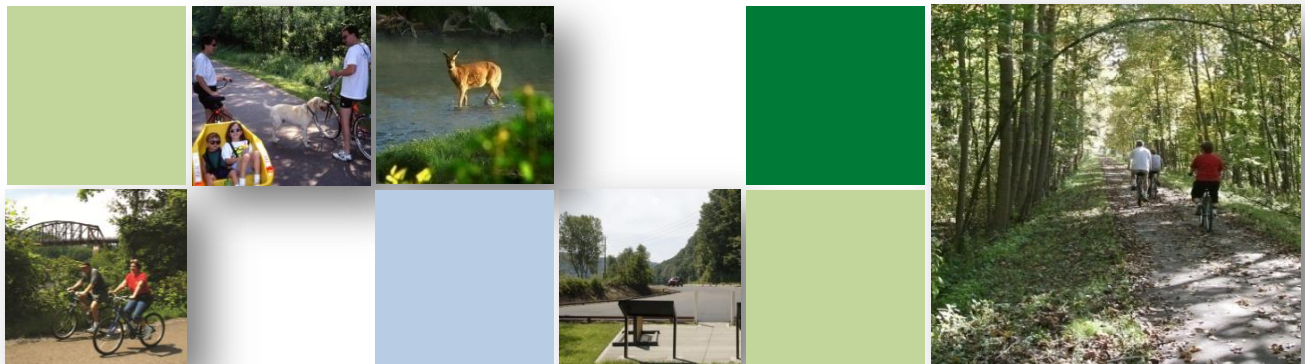

During 2012, ORA is focusing its trail development work on the few remaining gaps in the Oil Region's section of the EPT. Funding is provided by grants from DCNR, PennDOT, NPS, and the County of Venango (CDBG funds) along with contributions from the County of Crawford and Titusville Leisure Services. Individual projects include:

- Engineering the 0.7 mile portion through Emlenton,
- Negotiating rights-of-way and completing real estate abstracts for the 3.1-mile extension of the Queen City Trail from downtown Titusville into Hydetown,
- Paving the McClintock Well #1 and Rynd Farm parking lots on the McClintock Trail, and
- Constructing 1.7 miles of the McClintock Trail from McClintock Well #1 south along the railroad tracks to the junction of North Seneca Street and the Route 8 Bypass in Oil City.

In addition, ORA will participate in the Erie-to-Pittsburgh Trail Alliance and the Council on Greenways and Trails.

Project Partners

- Borough of Emlenton
- City of Oil City
- City of Titusville
- Cornplanter Township
- Council on Greenways and Trails
- County of Crawford
- County of Venango
- Erie-to-Pittsburgh Trail Alliance
- Hydetown Borough
- National Park Service
- Northwest PA Regional Planning and Development Commission
- Oil Creek State Park
- Oil Creek Township, Crawford County
- Pa. Department of Conservation and Natural Resources (DCNR)
- Pa. Department of Transportation (PennDOT)
- Pa. Utilities Commission
- Titusville Leisure Services
- Titusville Renaissance, Inc.
- Venango County Regional Planning Commission
- Western New York and Pennsylvania Railroad

IMPLEMENTATION PROJECTS

Oil Region Visitor Center Construction

Using previously approved designs, photos, and text, the newest Oil Region Visitor Center will be installed inside the Venango Museum of Art, Science & Industry in Oil City in 2012. It will be in the tall space between the gift shop and the handicapped-accessible restrooms. This exhibit will use photo enlargements, interpretive panels, fabric banners, a wooden brochure display, clear acrylic display case for artifacts, and supplementary fact sheets to depict "Oil City: 'The Hub of Oildom.'" In addition to minor indoor electrical and lighting upgrades, outdoor signage will be illuminated and updated to indicate the Visitor Center within the museum building, which is owned by the County of Venango.

Project Partners

- City of Oil City
- County of Venango
- Local charitable trusts and foundations
- Oil City Main Street Program
- Phoenix Design Associates
- Third Millennium Architects
- Venango Museum of Art, Science and Industry

Tourism Marketing

The tourism marketing for 2012 includes:

- Regular distribution of regional tourism literature to local outlets and key rest stops/outlets along I-79, I-80, the PA Turnpike, and in New York, Maryland and northern Virginia.
- Print marketing through special editions in local newspapers and in several magazines servicing the PA and Ohio markets
- Designing, printing and distributing both print and electronic versions of the 2012 Oil Region Visitors Guide
- Maintaining regional presence on tourism-related websites
- Broadcast marketing on local radio stations
- Updating and distributing a Regional Calendar of Events
- Regional partnership marketing through the PA Great Lakes Region
- Weekly regional fishing report

Project Partners

- County of Venango
- Crawford County CVB
- Darl Black
- Mercer County CVB
- Pa. Association of Travel and Tourism
- Pa. Great Lakes Region
- Squire Consulting
- VisitErie

PLANNING PROJECTS

Cranberry Township Adult Living Community

One of the more exciting new building projects for Venango County is the proposed 55+ Adult Living Community on 85 acres of land currently owned by Cranberry Township adjacent to the UPMC campus with frontage on Old Salina Road. This facility will address known life-stage housing needs in the region and free up existing housing stock for families moving to the region. ORA's focus in 2012 is managing the donation of land from Cranberry Township and coordinating developers and partners to get the project to its building phase in 2013.

Project Partners

- Cranberry Township
- County of Venango
- Vantage Healthcare
- Venango County Regional Planning Commission

Emlenton Brownfield

The former Honeywell Petrowax facility was located on 50 acres adjacent to the Allegheny River in Emlenton. The site is now a Brownfield Site and includes a portion of the Erie-to-Pittsburgh Trail that runs through the property. In 2012, ORA will work with Emlenton Borough to receive a donation of land from the Borough and begin developing a Master Plan for the property. The plan will likely include integration of recreation and light industry within the restrictions imposed on reclaimed industrial properties.

Project Partners

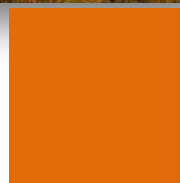

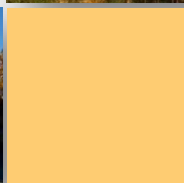

- Allegheny Valley Trails Association
- Borough of Emlenton
- County of Venango
- Venango County Regional Planning Commission

Oil Region National Heritage Area Sustainability Plan

The Oil Region National Heritage Area is one of the region's great assets and future sustainability is critical. Arising from the interaction between the NPS and its National Heritage Area program, the plan will use consultant services, public input, staff and volunteer exploration of sustaining alternatives, and an implementation strategy to combine the preservation of the area's cultural and natural resources with ongoing revenue sources.

Project Partners

- Charles Flynn
- National Park Service
- Pa. Department of Conservation and Natural Resources

PLANNING PROJECTS

Oil Creek Memorial Landing

The Oil Creek Memorial Landing is a new rest area, trailhead, kayak/canoe access area, and memorial site planned for the McClintock Trail portion of the Erie-to-Pittsburgh Trail along Route 8 in Oil City immediately upstream of the Dollar General retail store. During 2012, detailed engineering is planned for this half-acre site between North Seneca Street and the shoreline of Oil Creek. Construction begins in 2013. Funding is provided by grants from PennDOT, DCNR and private donors.

Project Partners

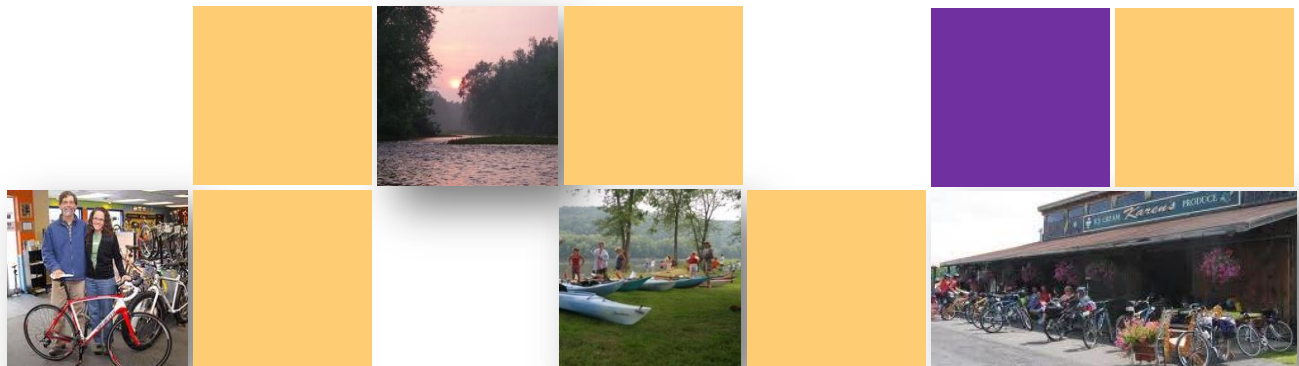

- City of Oil City
- Council on Greenways and Trails
- Dollar General Store on Route 8
- Pa. Department of Conservation and Natural Resources (DCNR)
- Pa. Department of Transportation (PennDOT)

Erie-To-Pittsburgh Trail Entrepreneurship

The Erie-to-Pittsburgh Trail is much more than a valuable recreation asset; it is a powerful economic development tool, as proven by trail systems throughout the U.S. This planning project, coordinated with the Oil Heritage Region sustainability plan (see Priority Planning Project 3), seeks to capitalize on business/entrepreneurial opportunities along the trail system.

Project Partners

- Clarion SBDC
- County of Venango
- National Park Service
- Pa. Department of Conservation and Natural Resources (DCNR)
- Pa. Convention and Visitors Bureau (PACVB)
- SCORE Venango County

ONGOING PROGRAMS

Allegheny GeoTrail and Other Geocaching Programs

Allegheny Geo Trail (AGT) participants enjoy the increasingly popular outdoor activity of geocaching, which uses a Global Positioning System (GPS) receiver to locate hidden containers, or caches, throughout the 10 counties participating in AGT. Literally thousands of finds bring visitors into the Oil Region to spend time and money at regional businesses each year. As administrator of the AGT, ORA will continue management of the program and the accompanying website while seeking additional partners to expand the program in 2012.

In addition, the GeoTrain event will be held in August of 2012, bringing geocaching activities to the Oil Creek & Titusville Railroad and Petroleum Centre.

Project Partners

- County of Cameron
- County of Clarion
- County of Crawford
- County of Elk
- County of Forest
- County of Jefferson
- County of McKean
- County of Potter
- County of Warren
- Council on Greenways and Trails
- Oil Creek State Park
- Oil Creek & Titusville Railroad
- Penn Soil RC&D Council
- Volunteer Geocache Hosts

New Industry Marketing

New industry marketing will take the form of Network Marketing - using ORA's extensive network of contacts in government, business and economic development organizations to receive leads for new businesses that can benefit from the Oil Region's assets. Partners and methods will be determined on a case-to-case basis and may range from pre-printed ORA marketing brochures to organizing teams of local business people and government officials, providing highly specialized proposals, and interaction with state economic development resources. Funding is provided by the PA Department of Community and Economic Development (DCED).

Natural Gas History Traveling Exhibit

The new traveling exhibit showcasing components from ORA's natural gas history artifact collection begins with the first of several units, "Walking the Line." This initial unit will use artifacts, audio excerpts from oral histories, photographs, tools, logs, letters/diary excerpts, and safety equipment to portray how the occupation of physically checking natural gas pipelines has evolved since the start of this energy industry and through the four seasons of the year.

Project Partners

- AA Nagy Excavating and Construction
- Drake Well Museum
- In Source Energy (formerly Columbia Gas Company)
- National Fuel Gas Company
- National Park Service (NPS)
- Retirees from National Fuel Gas Company and Columbia Gas Company
- Venango County Historical Society

Tarbell House

Ongoing rehabilitation to this 1872 historic home, constructed by famed teacher, author and journalist Ida Tarbell's family, includes electrical service, period lighting, apartment wall realignments, plumbing, HVAC, and security/smoke/fire systems to restore initial appearance and meet modern safety and code compliance with best practices for a Victorian era building. An Open House is set for Saturday afternoon, August 11; other tours are by appointment. Volunteer work sessions and free preservation training workshops will be conducted on site.

Project Partners

- City of Titusville
- Gustafson General Contracting
- Harold A. Heist Charitable Trust
- Helmer Rabild Charitable Trust
- National Park Service (NPS)
- Pa. Department of Conservation and Natural Resources (DCNR)
- PNC Bank Managed Trusts
- Titusville Area School District
- Titusville Historical Society
- Titusville Renaissance, Inc.
- University of Pittsburgh at Titusville

ONGOING PROGRAMS

Educational Materials and Programs

A wide range of new and updated educational materials and programs will be produced, printed, and conducted by ORA's Heritage staff and volunteers during 2012, including the following: two new brochures and study guides about the HubOra oil well drilling project; new booklet of condensed writings by Ida Tarbell; updated Titusville Walking Tour brochures; new historical marker recognizing P. C. Boyle; continuing series of ORNHA House Plaques; new competitive educational oil-history and oil-preservation mini-grants; new interpretive panels at Coal Oil Johnny House, trails, overlooks, and historic sites; four Oil History workshops; updated "Exploring Venango County" booklet; teacher's workshop utilizing existing oil/gas history materials; August 5 Open House at McClintock-Steele-Waitz House; and series of 3 concerts and at least one public memorial service at Neilltown Church Building.

Project Partners

- Allegheny Valley Conservancy
- Benson Memorial Library
- Bill Huber
- Carolee Michener
- County of Crawford
- Elk County Council on the Arts
- Friends of Drake Well
- Justus Trust
- Local charitable trusts/foundations
- National Park Service
- Oil Creek State Park
- Private donors
- Property owners desiring house plaques
- Sisters of Mercy
- Titusville Historical Society
- Pa. Partners in the Arts, within Pa. Council on the Arts
- Venango County Historical Society
- Venango Newspapers, Inc.

Books, DVDs and Other Products

The Oil Region Alliance offers for sale numerous non-fiction oil/gas history publications and DVDs produced by ORA and written/published by others. In addition, various commemorative and clothing items are on stock, featuring OIL 150, Allegheny GeoTrail, and oil history. Sales occur at the ORA office, during special events, at the Liberty Galleria in Franklin, and via the e-stores in www.oilregion.org and www.oil150.com. During 2012, more titles will be added, more off-site sales locations will be arranged, and ORA will convert two of its own books (including the Drake Biography) into e-books to test this emerging media.

Project Partners

- Dr. William Brice
- Franklin Moving Forward
- Friends of Drake Well
- Pa. Department of Conservation and Natural Resources
- Venango County Historical Society
- Venango Museum of Art, Science & Industry

Municipal Outreach

Many Oil Region municipalities and townships do not have staff resources to take advantage of grant opportunities. ORA provides staff resources to these municipalities and townships in the form of grant writing assistance, developing educational venues of value and other assistance as necessary.

Project Partners

- U.S. Small Business Administration

I-80 Industrial Park Development

Land near Emlenton is targeted for the next I-80 industrial park development project. For 2012, ORA will concentrate on managing the donation of land to ORA for development purposes.

Project Partners

- Borough of Emlenton

ONGOING PROGRAMS

Oil City Main Street Program

ORA will continue to house the Oil City Main Street program, a comprehensive, community-based downtown revitalization project. Its mission is to make Oil City's downtown business district aesthetically pleasing and economically viable, providing a foundation for the healthy growth and success of current and future businesses for the benefit of current and future residents. Although the Main Street program is managed by the Main Street committee and its partners, ORA provides office space, administrative assistance, and personnel services. Funding for the project is provided by the grantors and contributors of the Main Street Program.

Historic Designation

The National Transit Building and Annex in downtown Oil City will be nominated for a classification upgrade within the National Register of Historic Places, from Individual Listing to National Historic Landmark. NHL is the highest category of protection within the National Register of Historic Places, opening opportunities for federal funding not available with the building's current classification. Funding is provided by a grant from the NPS.

Project Partners

- City of Oil City
- National Park Service (NPS)
- Oil City Arts Revitalization
- Oil City Civic Center, Inc.
- Pa. Department of Conservation and Natural Resources (DCNR)
- Taylor and Taylor Associates

Local Business Retention/Expansion

The key to job growth in the Oil Region is the expansion of established businesses and entrepreneurial startups. In addition to projects already mentioned elsewhere in this Program Summary, ORA will continue with programs that take advantage of opportunities to assist regional businesses and entrepreneurs, including:

- Venango Business Action Team (V-BATS, formerly BREP) calling program - regularly scheduled interviews with regional businesses to identifying their challenges and opportunities and connect them with resources from ORA and a variety of partners. V-BATS also seeks to identify distressed enterprises in danger of closure and businesses planning to move from the area in order to avoid those undesirable activities when possible.
- Business and finance assistance workshops.

Project Partners

See the Derrick of Resources on the back cover.

PROJECT/PROGRAM SUPPORT

This document describes Oil Region Alliance projects for 2012. But that's not all we do. On a daily basis we nurture the relationships that give the Alliance substantial value. In government and business to relationships with grantors and partners, the Alliance always seeks to maintain its contacts and improve its networks. Its work includes administrative tasks such as grant writing and management, fiscal management and reporting, investigating new opportunities, maintaining historic properties and presenting programs and workshops.

The point is that there is much more to the Alliance than can be presented in this Summary of Projects. We invite you to learn more about the Alliance through volunteering, advising, or joining our membership in supporting the organization. For more information, call 814-677-3152. You can request our newsletter and other email notifications when you call. In addition, visit our website at www.oilregion.org.
